

Time Savings Study

How can Ballistic NailScrews® save you time and money?

We did a time study comparing:

- Bulk screws
- Collated screws
- Ballistic NailScrews® using three tools:
 - NSD9021 20° - 22° Plastic Strip Nailer
 - NSDGT9021FRH 20° - 22° Plastic Strip Gas Nailer
 - NDSCN75 15° Coil Nailer

In our study, we timed the application of two deck boards on 12 inch centers (28 fasteners). The professional deck builder had never used Ballistic NailScrews® or Ballistic NailScrew® Drivers before.

Fastener and Tool	Time in Seconds	% of Time Saved over Bulk Screws
Bulk Composite Screw	240	
Collated Screws	112	53%
NSD9021 Strip Tool with NailScrews®	56	77%
NSDGT90FRH Gas Tool with NailScrews®	58	76%
NSDCN75 Coil Tool with NailScrews®	47	80%

See our speed comparison video at HowToNailScrew.com.
